01/2022 – 08/2023

Concordia University, Montreal, Canada

WORK EXPERIENCE

Frontend Web Developer

09/2023 – Present

WorkJam Inc.

Ottawa, Canada

- Rigorous hand-on experience as a dedicated Front End Developer working with React.js, AngularJS, TailwindCSS, Typescript, Javascript, AngularJS. Expertise in React principles, state management, and data flow, with a solid understanding of web development best practices, including responsive design. Developed highly accessible web app features.
- Adept at working in Agile/DevOps environments, leveraging tools like Confluence, JIRA, and Jenkins for efficient project management and CI/CD.
- Achieved 100% test coverage for utilities and curated end-to-end user interaction tests using Storybook and Jest.
- Focused on keyboard navigation and accessibility concerns per WCAG standards. Experienced in using GraphQL Mesh for plugging in multi-technology backends to Front End.

Software Developer Intern

05/2023 – 08/2023

WorkJam Inc.

Montreal, Canada

- Transformed Open-Source Project to adapt to company's needs and made it live in 4 months. Created plugins that reduced the company's expenditure on a purchased software, giving more flexibility over paid licenses.
- Worked on React.js, Node.js, REST API Integration, Docker, Kubernetes, YAML API Documentation using SwaggerUI.

Salesforce Developer

06/2018 – 08/2021

InfoBeans CloudTech Limited

Pune, India

- Developed 2 products in a span of 1.5 years using Salesforce, Visualforce, Lightning, JavaScript and Apex.
- Participated in high-level architecture solutioning and software development for 3 clients in the Vehicle Insurance domain to make their online presence. Communicated with stakeholders on a daily basis following Scrum principles.
- Head of Payment Gateway Integration module for Fiserv API integration. Programmed daily schedules of batches for automatic payment. Responsible for maintaining best practices in salesforce development.
- Built third party system integration using REST API and web services. 50% involved in data modeling and system architecture.

PROJECTS

- Backstage (Internship Project) *React.js, Node.js, Tailwind, REST API, Open Source Project*
- Task Tracker App (Hobby Project) *React.js, Node.js, HTML, EmailJS*
- Vehicle Insurance Policy Management System *Salesforce.com, Payment Gateway Integration, Apex*
- Aircraft Management System *Salesforce.com, Apex, Visualforce, Database Integration*
